THE PERSON HERTZOG

THE fellow who writes the fighting stuff for a certain New York mining publication must certainly wear a coat of mail. It was advertised, by the way, that he was to have come to Nevada some days ago, but he hasn't shown up yet. He has been bitterly attacking a Goldfield mining man, but the people who have dealings with him stand sponsor for his acts and realize that though he had a partner in crime, or whatever his name may be, he was not in his partner's class, for the latter may have been ribbing markets while he was rigging holds and the like.

But the editor of the afore-suggested mining publication has one point to his credit. He gave a certain George Graham Rice a goodly portion of what was coming to him in the publicity line. Any newspaper that would accept advertising from this thrice convicted criminal wouldn't be even eligible to the Nevada Editorial association, and that is a pretty severe allegation in itself. Even Denver Dickey would hardly do anything like that. As to Rice, this fellow of changeable cognomens is now so utterly down and out that it is hardly worth while to give him any further publicity, no matter how much he may have deserved it in the days when he was so busily engaged robbing the widows and orphans and putting banks and commercial firms out of business. He is now dead and damned.

THE MARKET HOG AND OTHERS

IT IS to the credit of the Fish Lake club that it went out of its way to thoroughly inform itself as to both the state laws and federal regulations with respect to duck shooting and with firm intent to follow the precepts of both commonwealths, even if it did shorten the season, but the hunters in other counties decided that they would take full advantage of both stipulations, even to the conflict, and the local organization can't be blamed if it does likewise. The laws regarding killing migratory birds were made for California's benefit anyway and Nevada hasn't got a look in.

But that has nothing to do with the fact that the eye of the law, with its arm in readiness, should be kept on the market hog and the amateur sportsman who thinks it something to boast about if an overweight bag be taken or if other provisions of these illudated laws be broken.

AUSTRIA-HUNGARY CRIES "SOUR GRAPES"

AS TO Dumba being an undesirable, there is no question. He is the most vexing individual that has interjected himself thus far in the big international problem and even the great Chautauqua lecturer pales into insignificance in comparison, with his entire crew of pifflees thrown in for good measure.

Americans have the right to make all the contraband articles their factories can turn out and sell them to whom they please. Any workman who desires employment in such factories has the privilege of receiving a job. It doesn't matter to the manufacturer who buys these products, just so he pays for them. The central powers have been and continue to be patrons of the American munition firms, but they do not possess as great freedom of the seas as do their opponents, hence the Dumba incident.

CUT OUT THIS ROUGH STUFF

A STATE exchange shows a view of a wagon load of ore arriving at a depot. Four men with rifles, possibly loaded, their bearers also, were perched on the sacks. These were described as "armed guards." It is claimed that the shipment went \$118 a ton. Now who would walk up and pack off a ton of ore on his shoulder for \$118, considering that he would have to carry it several hundred miles to a smelter and then pay for treatment, stand for all the deductions and particularly the bullion tax? The "wheelbarrow kids" know what the job would be like. Besides, nobody in Nevada has the criminal instinct any more. Eighty-four inmates of the state prison are about to get up before the board of pardons and tell how spotless are their escutcheons, and everybody out of jail is presumed to be equally conscientious. Oh, hush on this armed guard business! It doesn't sell mining stock any more.

COMMISSIONERS' EARS BURNED

IF ANY of the members of the board of county commissioners had been within earshot last evening the aforesaid ear would have been shot by the remarks that were made by the ladies and their escorts as they emerged from the Pastime theater and went into the gale. Of course the trinity and their official adviser were not to blame for the gale. That would have been a mere circumstance, possibly welcomed after coming from the warm room, but what caused the county and town triumvirate to receive caustic criticism was the fact that the gale was accompanied by a brindle colored cloud that obscured the lights, choked the lungs and soiled the garments of the theater comers. It's no wonder that laundries and clothes cleaning establishments are multiplying in this village. As to tarvia, it is not only a serious matter like death and taxation, but is a merry jest.

NEVADA GETS IT AGAIN

THE Butte Miner is evidently trying to "copper" silver, otherwise it would not have given space and a big headline to a lot of junk peddled by a fellow named J. C. Phillips, who by the grace of God is auditor of the properties of Senator W. A. Clark. He intrudes like the dacite with a jumble of silliness and mendacity labeled "Nevada Camps Have Seen Best Days," in which Goldfield gets a lovely rebuke and Tonopah is not even mentioned. This uninformed individual tells of the 25,000 people that Rhyolite once had, but will no longer. Why if all the men in Rhyolite above 4,000 in the palmist days had been hanged, one telegraph pole would have accommodated them. This dampshire Phillips says that there is little water in Nevada. He probably did not seek its acquaintance while here.

HEALTH BOARD IS TO TAKE ACTION

WILL CONSIDER MEASURES TO PREVENT FURTHER SPREAD OF RABIES

The prevalence of hydrophobia in the northern section of Nevada among coyotes has become serious, the health officials of the state say, and steps must be taken by both state and local authorities to arrest the spread of rabies, lest it extend into the centers of population, says the Reno Journal. Since the last of June, fifteen cases where persons have been attacked and bitten by rabid coyotes and dogs have been reported to the state hygienic laboratory. In addition, several other cases are known where patients were treated in their own communities or were sent out of the state to be cared for, says the Humboldt Star.

The state board of health is now considering safeguards. Some weeks ago it issued an order advising the muzzling of all dogs in the sections where rabies are known to be prevalent. The order was merely advisory, but it has been enforced by the local authorities in several places. Serious attention has not been paid to it by ranchers and stockmen, however, although the state officials believe it is the most effective means of preventing the extension of rabies to domestic animals.

ANNOUNCEMENT

The following prices, f. o. b. Detroit, effective August 2, 1915:

Ford Runabout	\$390.00
Ford Touring Car	440.00
Ford Town Car	640.00

No speedometer included in this year's equipment, otherwise cars fully equipped.

There can be no assurance given against an advance in these prices at any time. We guarantee, however, that there will be no reduction in these prices prior to August 1, 1916.

Profit-Sharing with Retail Buyers

On August 1, 1914, we made the announcement that if we could make and sell at retail 300,000 Ford cars between Aug. 1, 1914, and Aug. 1, 1915, we would share profits with retail purchasers to the extent of from \$40 to \$60 on each car.

We have sold over 300,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed, should do so without delay. Our plan to profit-share with retail purchasers of Ford cars during 1914-15 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing until a later date. We are, however, confident of our inability to reduce costs for several months, and therefore can offer no profit-sharing for cars delivered during August, September and October, 1915.
